Take advantage when our cleaning intervention team is on site to benefit from the expertise of our **CERTIBIOCIDE** certified technicians and ask for a quote.

**SDI Ventilation** guarantees **discreet, fast and efficient interventions.**

- **Rat Extermination** : eliminates harmful rodents.
- **Insect Extermination** : eradicates cockbroaches, bedbugs, fleas, ants, flies and other flying or crawling pests.
- **Disinfection** : eliminates fungicides, bactericides, virucides and other unwanted microorganisms.

### WHY TREATMENTS ARE IMPORTANT ?

1/ Carrying out regular **preventive interventions**, guarantees a Healthy environment.

preventive : meets sanitary standards.

curative : presents a radical solution.

2/ Guatanteed optimal hygiene for all your food preparation surfaces.

3/ Avoid equipment getting unnecessary damaged.

#### SDI Ventilation offers you :

- Personalised inspection by appointment.
- Quicks intervention by our team of qualified technicians.
- Complete report with photos before and after the intervention.
- Certificate issued after the invoice is settled.
- Day and night intervention.

# HOW DO WE TREAT PESTS ?

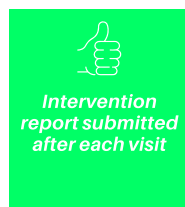

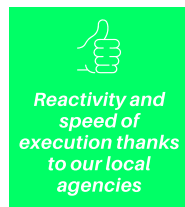

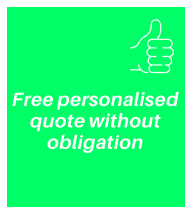

## INSECT & RAT EXTERMINATION AND DISINFECTION

### The SDI Ventilation methodology

#### *Preventive and curative treatment :*

- *Deep trail investigation carried out to determine the type of rodent.*
- *Depending on the diagnosis and the degree of infestation : we propose a tailor made action plan.*
- *Choice of bait is adapted to the type of rodents and the insecticidal gel is adapted to the type of insects.*
- *Quick results : a few days after our first visit, the immediate results are already visible.*
- *The complete elimination of rodents is done within 2 weeks and for insects is done within 1 month.*
- *Please note : our technicians can advise you on the best solution to implement.*
- *Surface are treated with a spray gun.*
- *Confined areas treated with a nebulisation device.*
